	an apprentice on NATS portal and other subsequent issues. This is due to the only reason that students have not enrolled themselves, rather they have been enrolled by establishment representatives/IPAs on behalf of students.
TIC	Accordingly, for the year 2023-24, some of the relaxations in the portal has been willidrawn for minimizing such complaints from students. It has been observed that the emolution of the students in the portal does not contain the correct email-it during mobile no. of the students which is a part of identity verification of the students. Hence, it has been decided that all such student enrolment where the students are enrolled with incorrect email id and mobile no. shall not be allowed to register any further on the NATS portal. Therefore, you are hereby requested to resure that all apprentices on the day of their joining must come prepared with the valid enrolment where in the force they are allowed to join in your establishment, so that correct email id and mobile uo. of the individual students are captured in the portal for the purpose of verification of their identity. This decision has been taken for the best interest of the NATS eco-system and to minimize the student's complaints about their unawareness on NATS entrolment/registration.
8	Hope the above-mentioned directive is strictly complied with immediate effect. Accordingly, an contract shall be approved by BOPT without verifying the correct email id and mobile no, and other documents/information of the students in support of iteir identity proof w.e.f. 16.05-2023.
	Thunking you
	Yours faithfully.
