ABOUT OUT COLLEGE

Bholaram Shibal Kharkia College, Maithon came into its existence in the year 1966 under the motivation of the members of a well known business house of Chirkunda and with the active role of D.V.C Maithon . The heartfelt regards to Late Raghunath Agarwalla of Maithon Ceramic Limited and Late Kishor Lal Agarwalla of Valley Refractories Ltd, the two industrialists of the house, cannot be forgotten by the people of this locality as the donor and founder of the College. Their inspiration is still alive which makes the College capable of achieving a good name. With their blessings, the college has become one of the leading and prestigious institutions of Binod Bihari Mahto Koylanchal University, Dhanbad today

The College is situated on the holy land of “ Kalyaneswari” just beside the crossing of Maithon - Kumardhubi road and by- pass G.T.Road, It is well connected with nearby township and railway Station “Kumardhubi”. The College is at a distance of about 45 kilometers from the University headquarters, Dhanbad .

The College was converted into a constituent unit and brought under Ranchi University, Ranchi in 1980. After the creation of Vinoba Bhave University with headquarters at Hazaribagh in 1992, the college has become constituent Unit of the University. Since 2017, it has been a constituent college under BBMK University, Dhanbad.

The college provides Intermediate as well as degree level Honours teaching in Humanities, Social Science, Science and Commerce subjects in three faculties with all amenities. Professional Subjects like Computer Science is being taught here with full efficiency.

B.S.K.College, Maithon, is a co-educational College which renders education to a good number of girls students every year, Over all, about 9500 students are enrolled in the college in every academic session. Special facilities are given to sportsman /woman, brilliant students, ST,SC and Physically Challenged students in admission. The College provides hostel facilities to SC/ST students and free education to girls as per the Jharkhand Government education policy.

STRENGTH:

The college has been the centre for multicultural activities of three states, Jharkhand, Bihar and West Bengal on the border of which the college is situated. The students from these three states with different cultural heritage intermingle here and blossom in a unique state of cultural affairs.

1. There is no dearth of students in this region as it covers a huge population.
2. Maximum percent component share of SC, ST and OBC in admission.
3. A wide premise of twenty one (21) acres of land under peaceful possession is the future prospect for extension of infrastructure of the college.
4. A large play ground within its premises of the college is always an additional advantage in promoting sports and cultural activities of the students which reflects the future dream of a stadium to be built for the students under the active co-operation of D.V.C (Damodar Valley Corporation) and MPL (Maithon Power Limited) ,Maithon.
5. Accommodation facilities provided to the teaching and non-teaching staff of the college is an extra attraction to encourage a good number of teaching and non-teaching staff to join the college preferentially.
6. The presence of PHED (Public Health Engineering Department) of Jharkhand adjacent to the college has been our potential to improve the drinking water supply system continuously.
7. Doorstep medical facilities to the students being provided by state run ESI Hospital and BP Neogi Hospital of DVC Maithon appears to be a boon for the college students.
8. Accommodation facilities to the tribal students in a separate boy's hostel built by welfare department of Jharkhand is an additional milestone of progress of the college for providing higher education to the tribal community of this locality.
9. The sufficient space around the UGC built library building provides the scope of its up gradation to a richer one.
10. Banking facilities in the college is another feather in the crown of the college.

WEAKNESS:

One weakness is there which merits detailed discussion. The college possesses about 21 acres of land from the days of its inception. The peaceful possession of land is continuing undisturbed. There is, however, no registered document available to the college to show the ownership of land on paper. There is proof of ownership on ground. The college cannot be held responsible for this because:

1. The government of undivided Bihar had given orders to the college for acquiring 21 acres of land and the college was directed to pay compensation to the government.

2. Some third party filed court case against the decision of the government and the compensation amount could not be paid to the government. The court cases continued to linger.
3. The government says that the land belongs to them. Our college is a constituent unit of Vinoba Bhave University, Hazaribag which is managed and maintained by the financial support of the government. Thus, the college also indirectly belongs to the government.

OPPORTUNITIES:

The educational environment in the country is changing and this multi-faculty co-educational institution has to keep pace with this change. Many experts are of the view that the present educational system is producing a large number of graduates who are not employable. This means that drastic change in the overall educational system may be visible in the near future. Stress may be on such a system which encourages –

- Vocational courses which provide opportunities for employment.
- Skill-enhancing courses which may open doors for students for starting their own business.
- To re-structure the syllabi in such a way that it becomes more productive.
- We are the constituents of a big University and will follow the guidelines given by the university. We will not be able to start new courses/vocational courses/skill enhancing courses without financial support from the University/Government/ UGC or any other such financing body. Space is the most important requirement for expansion programs and we possess the necessary space for such requirements.

CHALLENGES:

- Teacher – student ratio is very high.
- Lack of rooms and infrastructure.
- Crunch of enough funds.
